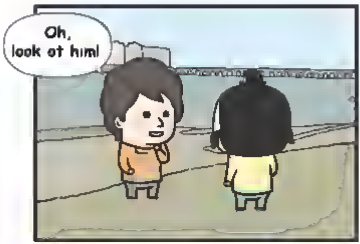
A Mother's Ability



While I was spending time with
my family in Korea, I realized one thing

The beginning of this realization started
2-3 weeks ago when Gail visited us

Before Mev come back home,
we went out for a walk to the park.

There is a big pond in the park.

People are allowed to give bread to the birds that live in the pond.

That day,
we gave some bread to the birds.

There were many different types of birds.

I wanted to finish feeding them,
but I have a fear of birds.

I was so scared because
they kept on making strange sounds
and flapping their wings

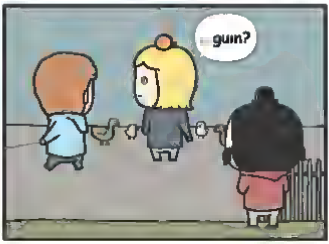
So I ran away and hid behind the fence

Some of the birds were very aggressive.

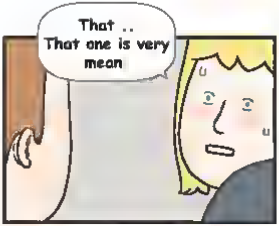
She talked to the birds and carried on feeding them.

Hey! I said it's not for you!

I'm not going to give it you do. Right, Peng ..



Soon, she realized that
I wasn't next to her.

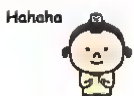


She said, she felt like she needed to explain the situation to the passer by.

Anyway, what I realized since that time is...

. whether it is an English mom
or a Korean mom, _.

... mothers can talk to animals.



Hahaha
